

## Gallery Fashion Show

It was a night to remember in downtown San Diego on Friday March 22, 2019. March air was warming up and spirits were soaring! Local professionals in diverse industries arrived at Basile gallery in their most fashionable attire; in sync with the high energy music.

Tacos La Mezcla food truck, was parked right in front of Basile for guests to enjoy complimentary Mexican food and drinks. As people mingled with other guest's, they browsed the space looking at all the fine art photography by artist Etienne and were able to meet the artist himself.

The theme of the night was 60's baroque pop; which our fashion show designs paired perfectly with. Fashion designer Timmithea, showcased 15 of her looks on five beautiful models in the live fashion show. We had a 60's inspired installation set-up for guests to take photos in. Our models weren't shy to strike their most fabulous poses with 60's items such as our chic rotary phone and tin lunch box.

Talented, Arlene Barra and Jovi Bantolo, captured the whole events experience in photography and on video for all to see.
