

NUDE PASTIES'

Do you ever feel frustrated that your bras show through your outfits? You have a ton of bras and yet some of them don't mix well with your outfits. Do you ever feel uncomfortable at a photo shoot or fashion show because you're walking around topless? Stylist' are helping you get dressed and it can feel intrusive with your nipples showing and most likely you're in a thong. I have a solution for you, and they are called pasties. No, pasties aren't just for strippers anymore!

The pasties are designed to be discreet when you are wearing styles that are more difficult to wear flawlessly with a conventional bra, like a backless gown or a low-plunge blouse. While wearing your favorite pieces you won't ever look trashy again with no-show pasties. You want to look attractive in a sleek fashion piece but not seductive with your nipples popping out.

The pasties are all one size; 6.5 cm in diameter each and are nude in color. All the pasties are round to fit beautifully over each nipple. Each package comes with five pairs of pasties. They are made of eco-friendly, soft silicone adhesive material which makes them feel smooth and non-irritating to sensitive skin. The pasties are waterproof, flexible, and easy to use. Since the pasties are reusable and light weight, they make a perfect companion to travel with. When you are done using these pasties you just peel them off, which is painless and quick. The best part is you can easily clean them and once you let them air dry overnight, they are ready to use again.

Other pasties may use different materials that hurt profoundly taking them off, but these don't feel like they are pulling your skin at all when removing them. This updated version is only \$15.99 for a whole pasties' packages.

Pasties are great for models because they are expected to wear various styles and a standard bra shows in many outfits. This product is particularly great for young women who need to have a flawless look no matter what outfit they are wearing. This product is great for women who are self-conscious of their nipples showing through their clothing when they can't wear a traditional bra.

I really like how many times I can reuse this product and how well they stay attached for a long period of time. This product covers your nipples nicely, but the downside is that you don't get any support or lift.

Once your nipples and area around the nipples are cleaned off from any oil or lotion, you are ready to apply. The pasties are simple to use by peeling off the plastic and applying the pasty over your nipple. When you are ready to take them off you just peel it off without any pain and rinse them off with cool water and gentle soap and let them air dry on the counter. Make sure to keep the pasties out of the sun while drying.

This product is worth every dollar because it is so versatile with all the possible outfits you could wear it under. The pasties can be worn all day without having them fall off and you can still re-use them 20 to 50 times each. I have personally worn them when I have been body painted and when I have attended dressy events. This is a must-have item in your wardrobe. What are you waiting for? It's time to put your order in.
